

I am filing a complaint in response to the nudity and totally inappropriate content in the Super Bowl halftime show. This type of ploy is completely unacceptable and should never have been allowed to be viewed by this audience. I am very concerned about the future of television primetime viewing content. Fines should be given and action should be taken to ensure these people are appropriately punished. It is obvious to everyone these people intended for what happened to take place. We as the American public are outraged and we will not sit idly by while these people mockingly put their immorality on display.
